

SLEE medical GmbH - Business Partners

COVID 19 - Current situation at SLEE medical GmbH22th March 2020

Dear valid business partners,

Of course, here at SLEE medical GmbH we are also extremely concerned about the rapid and dramatic development of the current situation regarding the global spread of the Corona virus. We hope that you, your employees and families are at least not directly affected by any infections. The health of our employees and their families as well as our friends and business partners is, of course, our top priority. We therefore expressly welcome the need for very drastic measures, such as those currently being decided on and implemented by the German government. It has recently been decided that all public life will be reduced to the absolute minimum. Shops were largely closed. Likewise, all restaurants and public facilities. The population was asked to limit contacts with other people as far as possible and to strictly observe hygiene measures.

The situation at SLEE medical is that we are able to work and to keep our operation running. As far as possible, we move office activities to our home office. However, we are able to continue working fully in assembly and in the warehouse & logistics area. Our most important suppliers are currently also fully capable of working and supply us as far as possible without major disruptions or delays. Our loyalty to our German suppliers, which has been practiced by SLEE medical GmbH for decades already, is currently paying off here significantly. Despite all restrictions and difficulties, we are therefore currently able to deliver your purchase orders on the confirmed delivery dates. In addition, we are currently able to deliver some standard products such as microtomes or embedding centers from stock at short notice. We also try to be available for you at any time in our support groups. Please contact us at any time with specific questions.

I wish you, your employees and families health and all the best. May we all get through this turbulent time safely.

Yours sincerely,

Stefan Schöck
Managing Director
